

FIN320 - Risk Management and Derivatives

Basic Information:

Instructor Name	TBA
Home Institution	
Instructor Title	
E- Mail	
Office	TBA
Office Hours	TBA, and by appointment

Course Description:

This course aims to expand on the concepts that you have been introduced to in Financial Markets. You will be introduced to the concepts of financial risk management and how to identify exposures and their associated risks. It will also introduce various hedging and derivative instruments that are used in financial markets. This course is designed to enable you to apply your academic learning to a contemporary workplace situation. The integration of work-based learning and academic learning will allow you to solve authentic business problems or address real issues faced in organization.

On successful completion of this course you will be able to:

1. Recognize and evaluate the uncertainty of business decision-making.
2. Understand the concepts associated with derivatives Pricing Models, to apply in risk management.
3. Understand and apply different methods of quantifying risk in different asset classes.
4. Develop professional communication skills appropriate to the finance industry to work collaboratively and effectively in broad professional contexts.

	16 Jan, 2020	TH	Reading Day		Exam Preparation
	17 Jan, 2020	F	FINAL EXAM		

Evaluation:

Class Attendance : 10%

Class Quiz: 30%

Homework: 20%

Final Examination (2 hours) : 40%

The Final Exam will be of Two Hours' duration and will consist of short answer/calculation questions, covering all topics. The exam contributes 50% to your final assessment.

Grading Policies:

Part	Percentage	Points
Attendance	10%	10
Class Quizzes*2	30%	30
Homework	20%	20
Exams	40%	40
Course Total	100%	100 Points

Grade Distribution:

Letter Grade	Grade Points
High Distinction	85-100
Distinction	75-84
Credit	65-74
Pass	50-64
Fail	0-49

Academic Integrity

SISU expects honesty from students in presenting all of their academic work. Students are responsible for knowing and observing accepted principles of scholarly research and writing in all academic work.

Academic dishonesty or cheating includes acts of plagiarism, forgery, fabrication or misrepresentation, such as the following:

- claiming the work or thoughts of others as your own
- copying the writing of others into your written work without appropriate attribution
- writing papers for other students or allowing them to submit your work as their own
- buying papers and turning them in as your own
- having someone else write or create all or part of the content of your assignments
- submitting the same paper for more than one study or class without explicit permission from the faculty members

General Principles

SISU is committed to principles of trust, accountability, clear expectations and consequences. It is also committed to redemptive efforts, which are meaningful only in light of these principles. Students will be granted due process and the opportunity for an appeal.

Academic dishonesty offenses generally are subject to incremental disciplinary actions. Some first offenses, however, receive severe penalties, including dismissal from the program.

General Disciplinary

The following is a non-comprehensive list of possible actions apart from dismissal from the program: warning from a professor, program director; a lower or failing grade on an assignment, test or course; suspension or dismissal from the course; suspension or dismissal from the program.

Disciplinary Actions for Specific Offenses

Some academic dishonesty offenses call for specific disciplinary actions. The following have been identified:

Falsification of documents:

Students who falsify or present falsified documents may be dismissed. Prospective students who are discovered to have presented falsified admission documents prior to admission shall be denied admission to the program. Should it be discovered after admission that a student had presented falsified documents for admission, such admission may be annulled and the record of academic achievement removed from the academic record, with appropriate notations. Such annulments or denials may be reviewed after one year.

Dishonesty in course requirements:

Course work (a quiz, assignment, report, mid-term examination, research paper, etc.) in which a student has been dishonest generally will receive zero points towards the grade in fulfillment of a course requirement, and/or the student may receive a failing grade for the course. The professor of the course determines the appropriate consequence.

Final assignment:

When a student cheats in a major or final assignment such as a comprehensive examination or presents plagiarized material in a major or final assignment, that student shall receive an F in that particular subject. Student cheats on more than two exams shall be dismissed from SISU.
